

Rangatira Reserve

The treasure connecting
Birkdale and Beach Haven

Volunteers are needed to build a support group for this area... especially those residents whose properties are “the backyard” to this reserve. The Rangatira Restoration Group is being formed to preserve and restore the bush and its general environment.

OUR AIMS ARE...

- To enhance the experiences of the many visitors to the bush walks in this area.
- To provide appropriate training for our volunteers, and for new residents living in the area that may like to get involved in their own backyard.
- Work with the Kaipatiki Local Board to ensure our aims and objectives are achieved through a partnering model.
- To have on-going connection with the Kaipatiki Restoration Network

A group of residents has now been formed who are keen to start work on Rangatira Reserve. There are regular volunteer “get togethers” planned for the reserve. Additionally, there will be workshops held based on weed identification, etc.

To be kept informed on what is happening, contact Andy or Jill.
